Personal data
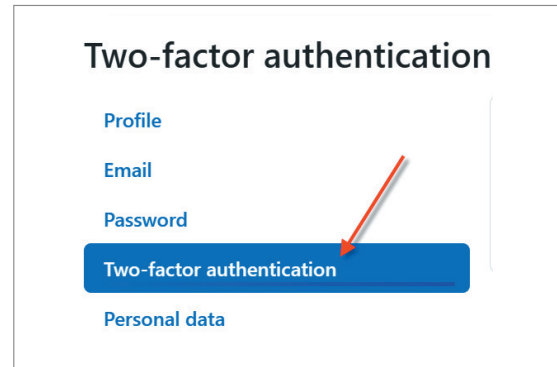

3. Click setup authenticator app

Authenticator app

Set up authenticator app
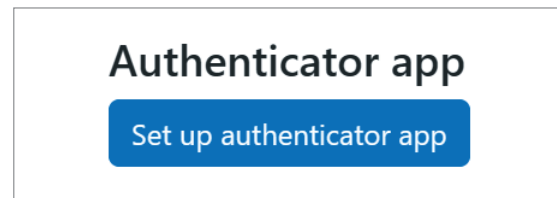

Follow the prompts and enter the code to verify you have done it correctly.

To use an authenticator app go through the following steps:

1. Download a two-factor authenticator app like Microsoft Authenticator for Android and iOS or Google Authenticator for Android and iOS.

2. Scan the QR Code or enter this key `vxxy ddvz mtdw ui5w xrkj ipbp` into your two factor authenticator app. Spaces and casing do not matter.

3. Once you have scanned the QR code or input the key above, your two factor authentication app will provide you with a unique code. Enter the code in the confirmation box below.

Verification Code

Verify

Once verified when ever you now login you will be required to enter the 2FA code to login.
