

Inviting a teacher allows you to share the system with other teachers you think may benefit from it.

Simply enter the teachers email address and press send.

The screenshot shows the 'Send Invite' form. It has a title 'Send Invite' with an envelope icon. Below the title is a light blue box with the text: 'You can invite external teachers. To attach invites to your school, a School account or a teacher granted the `manage_teachers` permission must send the invite.' Below this is an 'Email' section with a text input field containing 'teacher@school.edu'. Below the input field is the text: 'We will generate a secure link you can share.' Below this is an 'Invitation Expiry' section with a dropdown menu showing '14 days' and a downward arrow. At the bottom are two buttons: 'Send Invite' (blue with a paper plane icon) and 'Back to School Hub' (light blue).

This will send them a link to the system so that they can sign up to the trial and have a look at what it can do for them.

Note – They will not have access to your system.
They will get a new system with only the information they enter/create in it.
